DUO 6000
series

Innovative solutions
for
Design
& full service
Hotels

The Duo 6000 kiosk is a compact kiosk designed to be integrated in a tailor made cabinet. Your architects and interior designers can let their imagination design the most innovative receptacle for this very unique kiosk. In line with new and future consumer behavior, the kiosk has been developed to become the ideal complement to the traditional reception.

By reducing the waiting time for check-in & check-out, the kiosk will enable reception staff to provide a better service to guests that require more personalized attention.
